

## **WARRANTEE INFORMATION**

### **PRODUCT (MANUFACTURING DEFECTS)**

- Rulo Tools, manufacturer of 'Plastige' interlocking floor tiles, hereby warrants the product for 2 years against any manufacturing defaults
- Defaults would include material related defects, which could cause blistering or burnt markings or foreign material within the manufactured product. There is a quality control system in place within the production process, however, defaulted "reject" tiles can be overlooked and pass through quality control system.
- Manufacturing defaults do not include the following:
  - ❖ General wear and tear
  - ❖ Contamination by chemicals such as, petro chemicals; acids etc
  - ❖ Damage caused by foreign objects

### **SERVICES (INSTALLATION OF PLASTIGE INTERLOCKING PVC TILES) BY RULO TOOLS**

- Rulo Tools, installer of 'Plastige' interlocking floor tiles, warrants all installation work done for a period of 3 months post installation. This would be to allow for any minor corrections to be done to the satisfaction of the customer - "after sales satisfaction warrantee"
- Rulo Tools requires that all sites, requiring the installation of 'Plastige' interlocking tiles, be cleared and floor surface to be cleaned prior to the commencement of the installation. In the event that this has not been done either by the negligence of the customer or by the nature of the contents rendering such a task to be impossible, Rulo Tools are not to be held responsible for any damage caused to property as a result of work being carried out.
